## Global Initiative for Transformation of Nations

This is an initiative to intentionally and strategically raise men and women for the thrones who are fully equipped with wisdom, integrity of heart and skillfulness of hands, adequately armed with the scepter of righteousness to operate effectively on the thrones or any position of authority and to transform their domains, kingdoms and spheres of influence.

It will involve seeking blueprints from the heart of God, discipleship training and mentoring of men and women, young and old, developing productive plans and processes, and implementation of short-term and long-term strategies for the enthronement of righteous generations of men and women for the establishment of God's purpose and good governance among the nations.

This global initiative is a project which will deploy a multidimensional and multifaceted approach to socio-spiritual and socio-economic interventions in our communities towards the rebuilding of the waste places, the desolations of many generations and the establishment of enduring processes that over time will bring righteousness, justice and transformation to our communities, land and nations. This will require raising men and women with the scepter of righteousness in families, communities, cities, businesses, workplaces, marketplaces, government, schools and churches

## Operational Description of Thrones

The operational description of thrones is the position of kings, rulers, government, leaders (religious, corporate and political), parents, guardians and educators whereby someone has the privilege and responsibility to nurture, steer, guide, supervise, direct, lead, oversee and assert authority over others, be it a household, groups of people, community, the land and the nation.

Throughout history and our contemporary world, records have shown that to operate on the thrones effectively with significant success and to finish well is not the natural order of things in most nations, it requires strong commitment and determination. It is quite disturbing to know that a lot of people have inherited or taken over positions of leadership, positions of authority and influence or governments of nations and have created more problems than solutions.

Many will start very well, but later turn around to fail woefully. Others have the mind of doing good when they get to the thrones only to discover they are being hindered from doing the good in their hearts or effect the change that they intended to establish as they unfortunately realize that they were not prepared for the spiritual dimensions of thrones as they experience certain invincible forces or powers that are beyond the ordinary once they get to the thrones. All these we have experienced as a ministry in our dealings with kings, traditional leaders, and political leaders of many kingdoms.

We know that moral failures and character flaws of leaders have brought dire consequences on many communities, kingdoms and nations especially the nations of Africa, but how do we reverse these trends of colossal waste in our generation?

# The Thrones Paradigm

## The Problem Statements

The problems facing us often include, but not limited to the following:

- Lack of understanding of the purpose of thrones, nor the throne culture and mindset; the mysteries, dynamics and the operating principles of the thrones that lead to manipulation of kings, thrones and people in authority to do wickedness.
- Lack of spiritual, emotional and intellectual capacity building to facilitate good and righteous governance with the basic ingredients for establishing righteousness, justice and sustainable development on the thrones.
- Deficiencies in strategies to deal with the foundations of thrones and engage with cleansing of the thrones of kingdoms (ancient and modern) whose foundations produce wicked leaders, bad leadership and promote Babylonian and Satanic agenda among the nations.
- Inappropriate and inadequate discipleship training, mentoring and spiritual capacity building strategies for kings and people in leadership positions to overcome the challenges and responsibilities that go with thrones and when they get there they become casualties of circumstances and powers beyond their control.
- Lack of understanding by kings and leaders as custodians and gatekeepers of kingdom resources to deal with Babylonian systems and bring prosperity to their lands and spheres of influence.

## The Thrones Paradigm

The thrones paradigm is a concept that we are all responsible for one throne or another presently or later in life. It is a paradigm of initiating transformation by deploying the dynamic power of thrones and the spiritual energies of kings and all people in position of authority through proper mentorship. It is the paradigm shift of securing the future by raising royal personalities today for future deliverance and transformation just like Mordecai, the Jew was a dynamic mentor to Esther in the Bible; two people who shaped the history of their nation for good.

The throne is a place of strategy, power, authority and influence; and the main purpose of the throne is to establish righteousness and justice. However, for people to be effective and successful on their mandate and assignment on the thrones, they must be properly trained, their hearts must be well prepared to establish the purpose of the thrones without compromise like Daniel. The thrones paradigm must be taught and embraced as a veritable tool and resource for transformation of communities and nations. The thrones training, coaching and mentoring must be conceptualized and intentionally programmed into our fabrics of life from birth, in our families and educational institutions.

Fresh vision must be cast to explain the paradigm shift in the operating principles of thrones with emphasis on integrity of heart and skillfulness of hands as the basic ingredients for national transformation and sustainable development.

Socio-economic progress, public order and prosperity do not follow the natural order of things, we need serious commitment, strong determination and concerted efforts to face the brutal facts of the past and reshape history by laying a proper foundation for the future of our nations.

We must engage with the throne paradigm with due diligence and uncommon audacity, blueprints, actionable plans and implementation of both short-term and long-term strategies to unseat the thrones of wickedness in the land and open the gates for the righteous thrones and nations that keep the truth to be established.

## Key Features Of Operating On The Thrones

- The restoration of the king-priest identity, mandate and capacity of each individual.
- Redeeming the thrones and dealing with the foundations of thrones that hinders people on the thrones from doing the right things, but rather promotes bad leadership.
- Dealing with the spirits which destroy leaders (kings and royal seeds), removal of wickedness from the thrones of the land, raising, establishing and mentoring the righteous on the thrones in every place.
- Leading with integrity of heart, skillfulness of hands, competence, excellent spirit, dealing with the culture of greed and corruption, establishing righteousness, administering justice and ruling in the fear of God.
- Establish the fear and the worship of God on the throne, institutionalize pragmatic socio-spiritual and socio-economic interventions and providing solutions to the problems of society.

## Operating On The Thrones Global Movement

The vision is to raise, equip and release men and women with the scepter of righteousness to reign on the thrones and transform their domains, communities and nations. When people of similar ideas, and burdens come together and share a common vision; the collective synergy automatically brings exponential growth. And with clarity and focus on the shared vision, success means the same for everyone involved and the glory belongs to God.

We are prepared to share this global vision and initiatives with as many groups of people whose hearts the Lord has stirred up and are willing to partner with this initiative from kingdom to kingdom, province to province and nation to nation, small or large groups of people in any place and in every nation that can be mobilized which may be in a physical location as well as online. This will involve networking and collaboration with other individuals, groups and existing structures in different places, communities and nations, brainstorming and building strategic relationships on shared vision.

**Are you willing to make indelible impact in transforming and shaping the history of your domain, kingdom, community or nation?** Destiny is corporate and the battle for the thrones is fierce. Let us hold hands together for the cities of our God and let us rise up and build, for we are certain that the hand of God is upon us for good in this matter.

**You can participate in this global movement in the following ways:**

- Mobilize groups of people in your locality, territory or domain of influence for vision sharing and brainstorming
- Make yourself and ward available for training in our discipleship training, coaching and mentoring programs
- Share the global initiative with others who can mobilize groups of people for vision sharing and training purposes
- Pray regularly for effective doors to be opened for this initiative among every tribe, and tongues, people and nations.
